Smart Metering and the MDM/R: Guide to Registration Forms

Status

This guide is under development. We will update it when there are changes to the MDM/R or to procedures, and will record updates in the revision history section below.

Revision History

April 7 2010

- Change to instructions for the *MDM/R LDC Information and Progress Report*: Submit this form when you first register for the smart metering program, and then monthly to keep us informed of your progress on the project.
- Change to instructions for the *MDM/R Registration Application*: We recommend that you submit the application after completing the Introductory Workshop
- Change to the purpose of the *Project Plan*: We use the project plan to confirm your wave assignment based on the dates you provide. We will track your implementation progress against the plan's project milestones.
- Change to the purpose of the *LDC Organizational Relationships and Authority Delegation Form*: Establish a relationship between your company and an organization that is providing AMI, billing, or Web Services Provider services to your company. (LDCs that do not have agents still need to submit the form, indicating that the LDC itself is carrying out these functions.)
- Change to email address for *User Access Request Form*: mdmr.registration@ieso.ca

January 6, 2009

- Change to instructions for the *MDM/R LDC Information and Progress Report*: Send us the form when you start your smart metering implementation, and whenever you have updates on the status of your smart metering activities.

December 18, 2008

- We have replaced the entry level questionnaire and update questionnaire forms with the *MDM/R LDC Information and Progress Report*

August 14, 2008

- Minor editorial changes
